

#### COUNTY OF WELLINGTON

#### **COMMITTEE REPORT**

**To:** Chair and Members of the Planning Committee **From:** Sarah Wilhelm, Manager of Policy Planning

Date: Thursday, May 12, 2022

Subject: County Official Plan Review – OPA 119 Recommendation Report

#### 1.0 Executive Summary

- The purpose of this report is to review comments and recommend to County Council the adoption of County Official Plan Amendment No. 119 "County Growth Structure" (Link to Final Draft OPA 119 and Companion Document).
- OPA 119 is the first amendment to the County's Official Plan advanced as part of the County's Municipal Comprehensive Review (MCR) under section 26 of the Planning Act.
- The Amendment includes policies for complete communities, and policies and mapping for the County growth structure including: a settlement area hierarchy, employment areas, Regionally Significant Economic Development Study Area and historic hamlet of Puslinch.
- OPA 119 is informed by technical work presented in the Phase 1 Urban Structure and Growth Allocations Report and associated consultation from June to July 2021 which included a Public Information Centre and circulation for comments (see Planning Committee report PD2021-21 for further detail).
- Consultation for Draft OPA 119 included circulation for comment, a statutory open house on January 31, 2022 and a statutory public meeting on February 10, 2022 in accordance with section 26 of the Planning Act.
- For the reasons outlined in this report, staff recommend that OPA 119 (as amended) be adopted by County Council and forwarded to the Minister of Municipal Affairs and Housing for a decision.

#### 2.0 Background

In September 2019, County Council authorized the Planning and Development Department to proceed with the County Official Plan Review, which includes a Municipal Comprehensive Review component under the Growth Plan for the Greater Golden Horseshoe (2019). The Minister of Municipal Affairs and Housing has advised that municipalities may choose to use a phased approach (which includes more than one Official Plan Amendment) to achieve conformity with the Growth Plan. The growth structure in this amendment is based on the Phase 1 MCR Report: Urban Structure and Growth Allocations prepared by Watson & Associates.

#### 3.0 Summary of OPA 119

The County Growth Structure Amendment outlines where growth and development is to occur within Wellington to achieve the objectives, forecasts and targets required by Provincial policy. The Amendment is comprised of the following key changes:

#### **Complete Communities**

Add policies to support "complete communities" as a planning concept and objective of the Official Plan.

#### **Hierarchy of Settlement Areas**

Establish a revised hierarchy of settlement areas in the County based on servicing:

#### Settlement Areas

Consist of 12 primary urban centres:

- with existing or planned municipal water and wastewater systems within the Urban System under the existing policy framework; and
- delineated built-up areas and designated greenfield areas.

#### **Rural Settlements**

Consist of 2 secondary urban centres (Aberfoyle and Morriston):

- without municipal water and wastewater systems; and
- moves them to the Rural System and establishes a corresponding policy framework; and

Consist of 37 existing hamlets:

- continue to be recognized as hamlets, but moved to the Rural System; and
- also identifies the historic Hamlet of Puslinch, a long standing small community in the Township of Puslinch with existing residential, institutional and commercial uses.

#### **Other Changes**

- Remove section 6.4.7 policies for un-delineated rural settlement areas in the prime agricultural and secondary agricultural areas, and add a rural cluster policy for secondary agricultural areas.
- Identify urban employment areas in conformity with the Provincial Growth Plan.
- Identify a Regionally Significant Economic Development Study Area in Puslinch and a corresponding local policy.

#### **Mapping Updates**

- Introduce new mapping schedules to delineate the County Growth Structure.
- Update existing Land Use Schedules to reflect the new settlement area hierarchy, hamlet of Puslinch and Regionally Significant Economic Development Study Area.

#### **Technical and Housekeeping Changes**

• Update terminology, update map and text formatting, add definitions, italicize defined terms, and make housekeeping revisions related to the above changes.

#### 4.0 Provincial Policy Review

Key applicable policies with respect to this Amendment are those found in:

- Provincial Policy Statement, 2020 (PPS)
- A Place to Grow: Growth Plan for the Greater Golden Horseshoe, 2019 (Growth Plan)
- Greenbelt Plan, 2017

Provincial plans, such as the Growth Plan and Greenbelt Plan, are to be read in conjunction with the Provincial Policy Statement. Provincial plans normally take precedence over the policies of the PPS to the extent of any conflict and where the policies of the Provincial plans are more specific than the general requirements of the PPS. Land use planning decisions by the County must be consistent with the Provincial Policy Statement and conform with the policies of the Growth Plan, Greenbelt Plan and Official Plan.

The following information highlights how the direction provided by the Provincial plans and policies apply in the context of OPA 119 – County Growth Structure. The comments below generally focus on the more specific Growth Plan and Greenbelt Plan policies, however, the PPS policies have also been reviewed.

#### 4.1 Complete Communities

One of the guiding principles of the Growth Plan is to "Support the achievement of *complete* communities that are designed to support healthy and active living and meet people's needs for daily living throughout an entire lifetime." OPA 119 defines complete communities and adds it to the Plan as a fundamental belief and key objective.

OPA 119 provides the basis for future policy development to meet specific Growth Plan requirements, including for the County to:

- Consider the range and mix of housing options and densities of existing housing stock;
- Plan to diversity the overall housing stock across Wellington; and
- Use available tools to require that multi-unit residential developments incorporate a mix of unit sizes to accommodate a diverse range of household sizes and incomes.

See Growth Plan section 2.2.6.2 and 2.2.6.3 for additional detail.

#### 4.2 Managing Growth

The Growth Plan requires that at a minimum, the population and employment forecasts in Schedule 3 will be used for planning and managing growth to 2051. OPA 119 does not implement the 2051 population and employment forecasts on a County-wide or municipal basis because additional consultation with Member Municipalities was required. The population and growth allocations will be implemented through a subsequent amendment to the County Official Plan now that the Phase 1 technical work has been concluded and endorsed by Council.

Section 2.2.1.2 of the Growth Plan sets out specific requirements for a hierarchy for allocating growth:

Growth Plan Section 2.2.1.2	OPA 119
"Forecasted growth to the horizon of this Plan will be allocated based on the following:	
<ul> <li>a) the vast majority of growth will be directed to settlement areas that:</li> <li>have a delineated built boundary;</li> <li>have existing or planned municipal water and wastewater systems; and</li> <li>can support the achievement of complete communities;</li> </ul>	12 primary urban centres meet this criteria
<ul> <li>b) growth will be limited in settlement areas that:</li> <li>are rural settlements;</li> <li>are not serviced by existing or planned municipal water and wastewater systems; or</li> <li>are in the Greenbelt Area;</li> </ul>	2 secondary urban centres (Aberfoyle and Morriston) and 37 hamlets meet this criteria
<ul> <li>c) within settlement areas, growth will be focused in:</li> <li>delineated built-up areas;</li> <li>strategic growth areas;</li> <li>locations with existing or planned transit, with a priority on higher order transit where it exists or is planned; and</li> <li>areas with existing or planned public service facilities;</li> </ul>	12 primary urban centres have delineated built-up areas
d) development will be directed to <i>settlement areas</i> , except where the policies of this Plan permit otherwise;	No change needed
e) development will be generally directed away from hazardous lands; and	No change needed
f) the establishment of new settlement areas is prohibited."	See discussion below

With respect to the prohibition of establishing new settlement areas in item f) above, settlement areas mean:

"Urban areas and *rural settlements* within municipalities (such as cities, towns, villages and hamlets) that are:

- a) built up areas where development is concentrated and which have a mix of land uses; and
- b) lands which have been designated in an official plan for development in accordance with the policies of this Plan. Where there are no lands that have been designated for development, the *settlement area* may be no larger than the area where development is concentrated."

OPA 119 adapts this definition to include primary urban centres and rural settlements (secondary urban centres and hamlets).

In the Growth Plan, rural settlement areas mean:

"Existing hamlets or similar existing small *settlement areas* that are long-established and identified in official plans. These communities are serviced by individual private on-site water and/or private wastewater systems, contain a limited amount of undeveloped lands that are designated for development and are subject to official plan policies that limit growth..."

In rural areas, the Growth Plan requires development of more than three units/lots to be in settlement areas (2.2.9.6). Based on OPA 119, development of more than three units/lots would be directed to primary urban centres, secondary urban centres and hamlets.

OPA 119 adds rural settlements as a defined term which supports development of more than three units/lots in the following rural settlements in Wellington:

- 2 secondary urban centres (Aberfoyle and Morriston)
- 37 existing hamlets throughout Wellington County
- 1 re-designated existing historic hamlet (Hamlet of Puslinch)

These areas meet the rural settlement area definition as they are existing, small, long-established and identified on the Official Plan land use schedules (maps).

While OPA 119 continues to permit lot creation and a range of uses in Aberfoyle, Morriston and the hamlets, removal of Official Plan section 6.4.7 (rural settlements) is necessary to meet Provincial policy. Unlike existing hamlets to be retained, the rural settlements recognized by policy 6.4.7 are unmapped and unnamed in the Official Plan. Therefore, they do not meet the Growth Plan definition of rural settlement area. An attempt to identify such areas in the Official Plan would not conform with Growth Plan and Official Plan prohibitions on the establishment of new settlement areas.

In a meeting of January 26, 2022, the County re-confirmed with Provincial staff that policy 6.4.7:

- Conflicts with PPS policies which prohibit new residential lots in prime agricultural areas (s. 2.3.4.3); and
- Conflicts with Growth Plan policies which prohibit new settlement areas (s. 2.2.1.2(f)) and limits residential development in rural areas (s. 2.2.9.6).

Section 6.3 of this report outlines Minto Council's concerns about removal of section 6.4.7. Staff have revised OPA 119 to move policy 6.4.7 to a modified "rural cluster" policy under the Secondary Agricultural Area policies.

#### 4.3 Employment Areas

The Growth Plan requires the County to designate "all employment areas in the Official Plan and protect them for appropriate employment uses over the long-term" (s. 2.2.5.6). New County Growth Structure schedules of OPA 119 ensure that all Employment Areas in Wellington are designated, including those designations in local official plans.

#### 4.4 Puslinch Regionally Significant Economic Development Study Area

A guiding principle of the Growth Plan is to "improve the integration of land use planning with planning and investment in *infrastructure*...by all levels of government." Highways 401 and 6 are identified as part of the Provincial Strategic Goods Movement Network (SGMN)<sup>1</sup> in the Greater Golden Horseshoe, which has a goal to integrate the SGMN into relevant municipal land use plans.

The policies of the Growth Plan require municipalities to maintain a sufficient supply of land, in appropriate locations, for a variety of employment (2.2.5.1(b)). Section 2.2.9.5 allows for the existing rural employment areas in Puslinch to continue to be permitted. Expansions to these areas are limited to those which are necessary to support existing businesses and are compatible with surrounding uses. The Growth Plan places a priority on linking major goods movement corridors and employment areas (s. 3.2.4).

In accordance with Council's direction through October 2021 Planning Committee Report PD2021-25, staff has requested that the Minister of Municipal Affairs and Housing consider the exclusion of the Regionally Significant Economic Development Study Area from the Greenbelt Area as part of the proposed Greenbelt Plan expansion. The justification for the request is set out in report PD2021-25 and PD2021-17.

#### 4.5 Hamlet of Puslinch

Section 2.3.5.1 of the PPS states that "Planning Authorities may only exclude land from *prime* agricultural areas for expansions of or identification of settlement areas in accordance with policy 1.1.3.8". In the Greenbelt Plan, the goals for settlement areas in the Protected Countryside are to support a strong rural economy, maintain the character of rural communities, achieve complete communities and serve as community hubs (s. 1.2.2.4). For lands within Hamlets in the Protected Countryside, limited growth is permitted through infill and intensification subject to appropriate water and sewage services (s. 3.4.4).

In accordance with Council's direction through October 2021 Planning Committee Report PD2021-25, staff has requested that the Minister of Municipal Affairs and Housing consider the exclusion of the Hamlet of Puslinch identified in the Amendment as part of the proposed Greenbelt Plan expansion. The justification for the request is set out in that report.

#### 5.0 Consultation

OPA 119 has been informed by consultation since the release of the draft Phase 1 MCR Report: Urban Structure and Growth Allocations which includes:

- Technical Resource Team (TRT) meetings through 2021
- Virtual Public Information Centre (PIC) to present Draft Phase 1 Report on June 23, 2021
- Circulation of draft Phase 1 Report for comment from June to July 2021 to Member Municipalities,
   Indigenous communities, agencies, members of the public and stakeholders
- Results of the PIC and circulation were documented in Planning Committee report PD2021-21
- A statutory special meeting of County for the Official Plan Review held on June 29, 2021

<sup>&</sup>lt;sup>1</sup> Ministry of Transportation, *Towards a Greater Golden Horseshoe Transportation Plan*, June 2021.

The consultation for Draft OPA 119 included:

- October 2021 Circulation to Ministry of Municipal Affairs and Housing
- November 2021 Circulation to Member Municipalities, Indigenous communities, agencies, members of the public and stakeholders
- January 31, 2022 statutory public open house for Draft OPA 119
- February 10, 2022 statutory public meeting for Draft OPA 119

In order to obtain public feedback, notification of engagement opportunities was provided through the project email list and website updates. Notice of the statutory public open house and public meeting was provided in accordance with the Planning Act and advertised in the Wellington Advertiser. Meetings were held virtually due to COVID-19.

# Consultation at a Glance

**58** Public Open House Participants

**31** Public Meeting Participants

**43** Written Submissions

#### 6.0 Key OPA 119 Comments and Changes

A summary of the key comments and a description of changes made to OPA 119 as a result of feedback is provided below. For further details on these and other comments, see Appendix A (Open House Meeting Summary), Appendix B (Public Meeting Minutes) and Appendix C (Summary of Comments and Responses). Full written comments are available in the project file.

#### 6.1 Public Open House

Many of the comments at the open house related to OPA 119 focused on the Regionally Significant Economic Development Study Area in Puslinch. There were environmental impact concerns, including ponds, wetlands, endangered species and Areas of Natural and Scientific Interest (ANSIs). The impact on agricultural lands was also raised. There were also questions about how this relates to the existing industrial area in the Township's zoning by-law, about servicing and the impact of the boundary extending further west of Highway 6 North on nearby residents. The policy for the Study Area requires future study of transportation, servicing, agricultural and environmental matters.

#### 6.2 Public Meeting

Comments at the public meeting also focused on the Regionally Significant Economic Development Study Area. The comments emphasized agricultural concerns about the current economic benefits of farm lands, loss of food production lands and impacts on farming. There were also site-specific requests/concerns:

- To include additional lands owned by Bryan's Farm Equipment in the hamlet of Puslinch;
- To expand rural employment designation onto 4952 Seventh Line, Guelph/Eramosa and adjacent lands; and
- To support proposed Audrey Meadows subdivision in northern Puslinch.

#### 6.3 Municipal

Town of Minto comments are the only municipal comments that were received for OPA 119. The Town opposes removal of section 6.4.7 (rural settlements) from the County Official Plan because Council prefers that they continue to be recognized and to allow for minor infilling and rounding out. County staff met with Town staff and their consultant to review their concerns. In considering the Town's comments and concerns, staff propose that OPA 119 continue to remove section 6.4.7, but that it be moved, modified and renamed "rural clusters" as shown in the comparison below.

# CURRENT POLICY TO BE REMOVED from Prime Agricultural and Secondary Agricultural Area Policies

#### 6.4.7 Rural Settlements

Rural settlements are existing small communities that form part of the rural fabric of Wellington. These settlements are primarily small clusters of housing with occasional commercial, industrial or institutional uses. These areas are not designated on Schedule "A" and are not expected to grow but they may be recognized in the zoning by-law and limited residential infilling may be allowed.

# PROPOSED POLICY TO BE ADDED to Secondary Agricultural Area Policies

#### 6.5.4 Rural Clusters

Rural clusters are long-established small groups of housing with occasional commercial, industrial or institutional uses located in the Secondary Agricultural Area designation. These areas are not designated on Schedule "A" or "B" and are not expected to grow but they may be recognized in the zoning by-law. New lots may only be allowed in rural clusters in accordance with section 10.4.

As part of a municipal comprehensive review, the County will assess the impact of constraints such as the Provincial Agricultural Land Base, Natural Heritage System and Greenbelt Plan on the potential future supply of rural residential lots in the Secondary Agricultural Area, including rural clusters. This assessment will consider, among other things, whether changes to the rural residential lot creation policies are needed.

The above changes would only apply to Minto, Puslinch and Erin as these are the only municipalities with the Secondary Agricultural Area designation. The policy provides for further review of the rural residential lot creation policies to potentially address any rural growth shortfalls through the Municipal Comprehensive Review. We feel this approach would address the concerns of Minto yet remain consistent with Provincial planning policy.

#### 6.4 Indigenous Communities

Our office received comments from the Saugeen Ojibway Nation, requesting that we contact the Environment Office immediately with anything of archaeological interest.

#### 6.5 Agencies – Conservation Authorities

Our office received comments from the following conservation authorities:

Conservation Halton	•	No issues raised
Saugeen Conservation	•	No issues raised
Hamilton Conservation	•	HCA staff are not supportive of removal of Regionally Significant
Authority (HCA		Economic Development Area from the Greenbelt Plan and request to
		be advised of any related proposal. If OPA 119 is approved, request to
		be circulated proposed terms of reference for study.

#### 6.6 Agencies – Other

Our office received comments from the following legislated authorities:

Upper Grand District School Board	•	Comments to be considered in transportation policy component of Official Plan Review
City of Guelph	•	Change to OPA 119 text recommended to clarify that section 4.7.1 (Distinct Urban-Rural Boundary) applies to adjacent cities, as well as the settlement areas within Wellington County. Other comments included in Appendices.
Wellington Source Water Protection	•	Majority of comments will be considered as part of source water/ water policy component of Official Plan Review

#### 6.7 Public and Stakeholder Comments

The public and stakeholder comments received and the staff responses are included as Appendix C. The majority of the comments deal with matters in future phases of the growth management technical work (settlement area boundary expansions, rural employment area expansions, etc.), requests for additional information about OPA 119 and the overall Official Plan Review. Staff also received several requests to be added to the notice list which have been noted, but are not included in the table. The discussion below provides more details about key comments on OPA 119.

#### Regionally Significant Economic Development Study Area (RSEDSA)

Comments filed both support and raise concerns/objections to the RSEDSA. The key matters include agricultural, environmental and compatibility issues. If the RSEDSA is approved by the Province as part of OPA 119, detailed terms of reference will need to be prepared for the subsequent study which will be required to include a transportation analysis, a servicing strategy, an agricultural and environmental review. Future uses will need to be compatible with the surrounding area.

#### **Rural Settlement Policy 6.4.7**

There are two public objections to the proposed removal of rural settlement policy 6.4.7 for Puslinch. The first is from Jeffrey Wilker of Thomson Rogers on behalf of Audrey Meadows Ltd. His position is that the removal of policy 6.4.7 will be far more restrictive than Provincial policy and that his client's proposed Official Plan Amendment (file OP2021-02) should be written into OPA 119.

The applicant's proposal is for a rural residential development on vacant agricultural lands owned by Audrey Meadows which are adjacent to the existing Audrey Meadows subdivision south of Guelph on the west side of Victoria Road S in Puslinch. The vacant lands are currently designated Secondary

Agricultural, Core Greenlands and Greenlands in the Official Plan. The developed Audrey Meadows subdivision is designated Country Residential and Greenlands.

The proposal is based on the applicant's interpretation that the existing adjacent 48 lot subdivision is a rural settlement and that additional development of approximately 29 units on adjacent land would represent infilling. No changes to OPA 119 are recommended to provide for the above proposal as the OPA application is in process and it will be assessed based on existing planning policies (including section 6.4.7).

The second is from Dave Bouck (DRS Inc./Meran Holdings) who objects to the Provincial emphasis on growth in serviced urban centres, the local emphasis on severances for growth, and asks for the following additional historic rural settlements in Puslinch to be recognized: Crieff, Fielding Lane, Puslinch Lake and Corwhin. Section 6.3 of this report recommends changes that would allow for future review of historic rural settlements for additional severance potential. No further changes to OPA 119 are recommended.

#### **Historic Hamlet of Puslinch**

Public comments were generally supportive of the re-designation of the historic Hamlet of Puslinch. In addition, (1) Neal DeRuyter, MHBC for Bryan's Farm and Industrial Supply; and (2) Dave Bouck, Meran Holdings made requests to expand the proposed Hamlet boundary (see Figure 1).

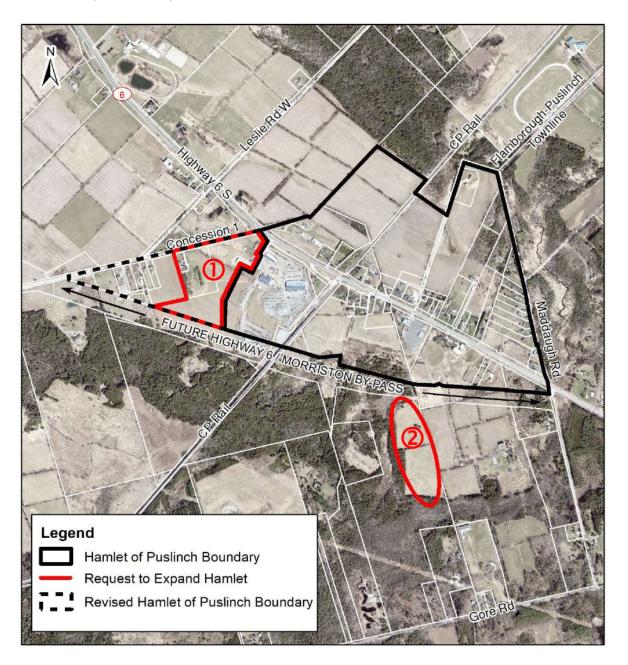

The proposal for Bryan's Farm and Industrial Supply is to expand the hamlet boundary to the west of the existing business to include additional lands under the same ownership. The existing operation is within the original draft hamlet boundary and the area outlined in red is proposed to be added (Figure 1). Staff recommends that the boundary be extended to include the additional lands for the reasons set out in the MHBC planning justification:

- Would provide for future expansion of a long-standing employment use
- Expansion would follow right-of-way of proposed Highway 6 By-pass
- Lands are considered prime agricultural but constrained due to MTO expropriation, existing nonagricultural uses, existing roads, irregular shape
- Would provide for potential residential severances
- Represents a minor increase of the total area of hamlet

Staff also recommends that the hamlet boundary be further extended westerly to include lands up to the intersection of Concession 1 Road and the Highway 6 By-pass, which are largely comprised of rural residential lots. The hamlet boundary in the final draft of OPA 119 has been revised to reflect these changes.

The second request is to add lands south of the proposed Highway 6 By-pass. Staff are not recommending that the proposed Hamlet of Puslinch be extended southerly to include the northern fields of Part of Lot 27, Gore Concession as the future Highway 6 By-pass represents a logical southerly limit of the Hamlet.

Figure 1 Requests to Expand Hamlet of Puslinch

#### **Centre Wellington Heritage**

Public comments seek to introduce detailed mapping and text changes to OPA 119 which would appear to have the effect of prohibiting intensification of any kind in the Fergus and Elora-Salem heritage area overlays. While the Growth Plan requires conservation of cultural heritage resources, this is not the same as a development prohibition.

There are policies already in place in the County Official Plan setting out requirements for heritage impact assessment and conservation plans. This type of study determines if any significant cultural heritage resources are impacted by a development proposal, whether the impacts can be mitigated and by what means. This allows for residential intensification requests requiring planning approvals to

be evaluated on a case by case basis within the context of the proposal and local cultural heritage resources.

The Provincial Growth Plan is based on an "intensification first" approach and a minimum residential intensification target of 20% has been in place in the County Official Plan since 2009. Largely due to cultural heritage resources in Centre Wellington, County Council has supported a request for an alternative intensification target of 15%. If approved by the Province, the reduced target will be implemented through a subsequent amendment to the County Official Plan.

#### **Centre Wellington Natural Heritage System**

Public comments raise concerns that the Official Plan and OPA 119 do not define and map a County Growth Structure with a Natural Heritage System. The County Official Plan currently identifies a Natural Heritage System on Greenbelt Plan schedules for Puslinch and Erin. The identification of a Natural Heritage System for the remainder of the County will be part of future technical work through the MCR and these comments will be considered at that time.

Natural heritage features and areas are currently identified on the land use schedules for each municipality in the Official Plan. The policy protections (and restrictions in local Zoning By-laws) for such areas continue regardless of whether or not they are shown on the new Growth Structure Schedules. The terms "natural heritage features and areas" and "Natural Heritage System" do not appear in OPA 119 because they are already defined terms contained in the Official Plan.

#### 7.0 Provincial Comments

As legislatively required, our office circulated Draft OPA 119 to the Ministry of Municipal Affairs and Housing on October 4, 2021. The statutory 90-day minimum window was satisfied in early January 2022. While staff would always prefer to work with Ministry staff to address any potential policy matters, to date we have not received input and prefer not to delay this Amendment any further. As the approval authority for the Amendment, the Province is in a position to make changes to OPA 119, if necessary.

#### 8.0 Final Draft Official Plan Amendment

The final draft County Growth Structure Official Plan Amendment being recommended in this report may be found at the following link: <u>Link to Final Draft OPA 119 and Companion Document</u>

Changes made to the Final Draft are highlighted in the companion document.

#### 9.0 Conclusion

Staff are satisfied that OPA 119 is consistent with the Provincial Policy Statement (2020), has regard for matters of provincial interest, and is in conformity with the Growth Plan (2019) and Greenbelt Plan (2017) subject to Provincial acceptance of the Regionally Significant Economic Development Study Area and the Hamlet of Puslinch. Public concerns have been considered and addressed. In our opinion, OPA 119 represents good planning and is in the public interest.

#### 10.0 Recommendations

That pursuant to section 26 of the Planning Act, County Council declares that Official Plan Amendment 119 – County Growth Structure (a) conforms with the Growth Plan for the Greater Golden Horseshoe and Greenbelt Plan, subject to Provincial acceptance of the Regionally Significant Economic Development Study Area and the Hamlet of Puslinch; (b) has regard for matters of provincial interest in section 2 of the Planning Act; and (c) is consistent with the Provincial Policy Statement.

That a by-law adopting County of Wellington Official Plan Amendment 119 be approved.

That the County Clerk forward the report to the Ministry of Municipal Affairs and Housing and to Member Municipalities.

Respectfully submitted,

Sarah Wilhelm, MCIP, RPP

Manager of Policy Planning

# Wellington County Official Plan Review OPA 119 Virtual Public Open House Meeting Summary

Prepared by LURA Consulting

#### Background

The County of Wellington is currently reviewing its Official Plan (OP) to complete a Municipal Comprehensive Review (MCR) and a 5-year review of its Official Plan as specified under Section 26 of the *Planning Act*. An MCR is part of the OP review process. It establishes a long-term vision and planning framework for a municipality that fosters a sustainable approach to future growth and economic development. The County is doing this to prepare for additional population and employment growth and ensure that the updated OP supports healthy, compact, and complete communities in Wellington as directed through *A Place to Growth: Growth Plan for the Greater Golden Horseshoe*.

In June 2021, the County released its MCR Phase 1 Report (<u>review the report</u>). It held a virtual public open house (<u>review the presentation</u> and <u>read the consultation summary</u>) to discuss the recommendations prepared by consultants Watson & Associates Economists Ltd. relating to Urban Structure and Growth Analysis. Official Plan Amendment (OPA) 119 implements part of the growth management technical work from Phase 1, including:

- Adding new policies for complete communities
- · Revising and mapping the County growth structure based on servicing
- Adding new policies for the Regionally Significant Economic Development Area in Puslinch
- · Re-designating the existing historic rural settlement of Puslinch as a Hamlet
- · Other technical and formatting changes

#### Meeting Promotion

Members of the public who wished to join the Virtual Public Open House were requested to register in advance. Individuals could also join the meeting by phone.

A public notice regarding the Virtual Public Open House was published in the Wellington Advertiser two weeks before the meeting. The meeting was also promoted through the County's social media platforms.

#### Meeting Overview

The Virtual Public Open House was held on January 31, 2022, with a purpose to:

- Provide an update on the County of Wellington's Official Plan Amendment (OPA)
   119
- Gather feedback and answer questions about Wellington County's OPA 119

The meeting presentation was posted in advance on <u>Plan Well</u>, the County of Wellington's Official Plan Review website, to allow participants to review it beforehand or follow along if they joined the meeting by phone.

#### In total, 58 participants joined the meeting.

Susan Hall (Facilitator from LURA Consulting) began the meeting with an introduction and overview of the meeting agenda. Sarah Wilhelm (Manager of Policy Planning at the County of Wellington) provided introductory remarks and delivered a presentation on the following areas of the County of Wellington's OPA 119:

- Policy Context and Provincial Planning Policy Structure
- Municipal Comprehensive Review (MCR) and Work Plan
- · Complete Communities
- · County Growth Structure
- Revised Settlement Hierarchy
- · Regionally Significant Economic Development Area (RSEDA)
- · Re-designating Puslinch as Hamlet
- · Consultation to Date

Susan Hall facilitated a discussion to receive feedback and comments from participants. A summary of the facilitated discussion is provided below.

#### What We Heard

#### General OP Review and MCR process

Participants were invited to ask questions and share their comments regarding the County of Wellington's Official Plan Amendment (OPA) 119.

The questions, answers, and comments are included as follows. Questions are marked by a 'Q', comments are marked with a 'C', and answers and responses are noted with an 'A'.

#### General

#### Q: Is more detailed information, such as technical reports, available online?

A: Yes. Information about the MCR process can be found on the County's MCR webpage, <u>visit the PlanWell webpage</u> – this webpage includes presentations, summaries, and technical reports under the "Public Consultation" tab. If any questions

are not addressed on the website, individuals can contact Sarah Wilhelm or Jameson Pickard by emailing planwell@wellington.ca.

#### Q: When do you expect to have final approval from the Province?

A: The deadline is July 1, 2022. So far, no comments have been received from the Province regarding the Official Plan Amendment, but the goal is to have this fully approved before the July 1 deadline. However, the final approval for the Official Plan review will require additional technical work and other phased amendments after July 1.

# Q: Will the current economic benefits of the land be examined, such as produced food and carbon sequestered?

A: This is something that the County can take away and look at in more detail. This gets into the intersection of climate change policies and will be a component of the work done through the overall Official Plan review. At this point, the study areas must first be determined.

# Q: How do we file our concerns about the ponds and wetland areas classified under Primary Agriculture?

A: If there are wetlands mapped in the current Official Plan, those would be considered part of the environmental review of the study area. If there are any specific concerns, individuals can mention them during the meeting or reach out to Sarah Wilhelm or Jameson Pickard at the County, so these can be captured in future reports.

# Q: Does the Township know when environmental sensitivity studies will be completed for the study area?

A: Provincial approval of the OPA is required first to establish a study area. Once this is defined, the Township and County can proceed with studying the area. It would be premature to start doing any detailed technical work until the study area is determined.

C: All future maps should show the Areas of Natural Scientific Interest (ANSI) so that these areas are not forgotten when doing reviews by various agencies. There are significant ANSIs in the southwest section of the study area, and one large area is included in the study area. ANSIs must be preserved into the future under the provincial Heritage and Conservation Act.

A: Currently, the ANSIs are shown on the Puslinch land use schedule in the County Official Plan. A future environmental review will examine natural features within the study area.

# Q: When will the excess lands designated within the Wellington North Township be reviewed and declared so the public knows which lands are impacted? Is this part of OPA 119?

A: This is not part of OPA 119. The concept of excess lands is part of the Phase 2 work currently being undertaken by Watson & Associates Economists Ltd. County staff are scheduled to present at the Wellington North Township Council meeting on February 7, where they will discuss the implications of excess lands.

#### Q: Why is Morriston being moved to a secondary urban settlement?

A: Re-classifying Morriston to the secondary urban settlement category relates to servicing, its small size, and the Province's methodology for determining land needs. The Highway 6 By-pass will happen regardless of how Morriston is categorized. There is an area of land between the Morriston boundary and the Highway 6 By-pass within the study area where the appropriate land use has not been fully identified yet. This area might allow for a small amount of residential development or other types of development. It is also possible to have some limited development on private services for industrial employment uses if it's a dry industrial use. Additionally, the study area includes a servicing strategy, which would be looked at in detail at the study stage.

# Q: How far down the line are discussions about bringing new employment lands into the inventory to make up for those lost to the highway?

A: The study area must first be selected before new employment lands can be determined. This will require a more detailed study.

#### Hamlet

### Q: Why are Hamlets being moved to a different designation? What does this mean?

A: Hamlets are being re-assigned from the urban system to the rural system. This is to recognize that the amount of growth allocated to these areas is a low level of growth. This aligns with provincial policies defined in the Growth Plan. The land use policies applicable to the hamlet designation remain the same, but they will be treated differently in the context of the Growth Plan.

# Q: What is the driver behind recognizing the Historic Hamlet of Puslinch? Is there an active interest in residential or commercial subdivision plans?

A: The driver behind recognizing this area was the historic policy in the 1988 Official Plan. Currently, there is no information on whether there is any interest in residential or commercial development. This is not considered under the current designation. The County has received some comments related to the Hamlet's boundary, which will be acknowledged in subsequent County reports.

#### Greenfield Areas

# Q: Will Greenfield Areas receive a designation, and when will they be implemented?

A: The Designated Greenfield Areas are already in effect as a policy area within the Official Plan. When looking at the land use schedules, there are designations in place for each urban centre within the Official Plan for Greenfield Areas.

# Q: What are the odds of Greenfield Areas being reviewed and rezoned? What would be the likelihood of future development areas being modified?

A: The settlement area boundary review is included in the technical work for Phase 3 - future development areas will likely be a part of that work. The land needs assessment assesses how future development areas can add to the land supply. The review and redesignation of future development areas would follow the land needs assessment and would be something that the County undertakes as part of Phase 3.

#### Regionally Significant Economic Development Area

Q: The Township of Puslinch established industrial development areas in their 2018 Zoning Bylaw. Why does the Regionally Significant Economic Development Area study look at a much larger area than what the Township had identified?

A: The Township of Puslinch did some work in their Zoning By-Law which identified the industrial parcels that have not yet been developed and discovered that there aren't many left. There are forecasts in the Official Plan for residential and employment growth. In 2016, Puslinch exceeded its 2041 forecasts for employment growth. This indicates rapid rural employment growth, which is why the Regionally Significant Economic Development Area study looks at a much larger area.

#### Q: What is the purpose or reason behind extending the northwestern boundary of the Regionally Significant Economic Development Area study further west of Highway 6?

A: The existing rural employment areas on the west side include a right-of-way with a 45-meter offset which takes away a lot of the designated land. In addition to that, some access constraints will happen based on the interchange's design. This means that the land would not be developed for employment purposes and requires closer analysis from the project team. Comments have been received from residential properties, opposite the westerly limit, about the prospect of having employment uses extended. As this study continues, the project team will be engaging again to discuss this in more detail.

Q: Changing the boundary of the Regionally Significant Economic Area Study to the west of Highway 6 cuts through primary agricultural land. This area already has a mid-block added to the area, and some residents are not comfortable with this additional potential change. When will this change be announced, and if it goes through, will the area no longer be classified as Primary Agriculture?

A: There is no certainty on whether the boundary would be changed, but all comments received to date will be considered when making recommendations to the planning committee and County Council. Whether that area will continue to be classified as Primary Agriculture requires further study. These decisions would be made in the future and will require public input.

C: Many people have moved to Puslinch for rural living. Many people live in this area because they want to find a rural landscape close to the city. That is one of the reasons why there are not as many residential developments in the area.

Q: If the land is within the Regionally Economic Development Area study but not within the Highway 6 extension study, can land use amendments be submitted before the final decision on OPA19?

A: If an individual wants to proceed with a particular proposal, they can contact County staff. However, if the proposal is not permitted under the current rural designation, it is suggested that the proponent wait until the study is completed. Individuals cannot be prevented from applying, but they are encouraged to reach out to policy or development staff to discuss the nature of their proposal before they file.

Q: What are the plans to manage the existing endangered species in the Greenbelt Areas within the context of the Regionally Significant Economic Development Area study?

A: Environmental concerns would need to be looked at on a site-specific basis and would have to be reviewed in more detail through the study.

#### Wellington 36

Q: What effect can the OPA have on a property located in Wellington 36? Do you plan on having any industrial development in the near future? Is there any potential of having a lot severance or a full-on development of Wellington 36?

A: As it stands, the intention is not to make any changes outside of the study area. However, anyone is welcome to share any comments related to their property. County staff will review these comments.

#### Q: Does the Settlement Area Boundary Review include Wellington 36?

A: A triangular piece of land north of Wellington 36 is included within the study area and will be reviewed further in the study. If there are any comments about the boundary, individuals should reach out to County staff.

#### Puslinch

Q: There's a minimal supply for residential development in the Puslinch area. Why aren't more lands being added to this type of land use? Is the County waiting for the landowners to come forward and say that this is what they would like to do?

A: Landowners are always welcome to provide their comments and feedback. However, the provincial policy environment is highly restrictive, and new estate residential subdivisions are no longer permitted. The Growth Plan and the Greenbelt Plan do not allow residential developments to be expanded or newly developed unless it has an existing designation. The County Official Plan also prohibits this kind of development.

Q: Caledon has multiple developments within their boundary. Why is Puslinch not allowing residential developments?

A: It isn't easy to compare the policies of two different Official Plans. Caledon might already have existing designations in their Official Plan that allow for that type of development, whereas Puslinch does not.

Q: Is there a plan for bringing services like sewer and water to Puslinch? If so, are there reports on how this will be served to the area we can review?

A: There was a study completed about the feasibility of municipal services for certain areas within the Township of Puslinch, and this information is available on the <u>Township of Puslinch's website</u>.

#### Applications and Process

Q: Can planning applications (i.e. zoning, site plan, etc.) still be submitted for properties identified within the Regionally Significant Economic Development Area (RSEDA) before the area has been officially studied?

A: The point of identifying the study area is to study it comprehensively and then look at what areas require land-use changes. It is not ideal to start initiating planning applications in advance of this study as its findings may require alterations to the application. The identification of the study area is not meant to prohibit development that is in keeping with current land use designations and zoning.

#### Written Feedback

Following the meeting, the County of Wellington received one submission by email. The following key points were raised through written feedback:

- Ensure that Planning Impact Assessments also include exterior design factors and support these assessments with Urban Design Guidelines.
- Develop planning policies for Secondary Urban Centres that take exterior built form into account, and ensure similar policies exist for major centres.
- Adjust the intensification criteria in residential land use designations to emphasize high quality of architectural design.
- Implement deconstruction policies that discourage outright demolition and encourage recycling of preservable materials.
- Consider using Model Urban Design Guidelines to steer the process for smaller lower-tier municipalities without the resources to develop their guidelines.

#### Wrap Up and Next Steps

Susan Hall of LURA Consulting provided participants with the project team's contact information for any additional feedback and wrapped up the meeting. Participants can provide their feedback and comments until February 13, 2022. Members of the public can contact the project team by email or by phone at:

**OPA 119 Public Meeting Minutes** 

#### **COUNTY OF WELLINGTON**

#### **PUBLIC MEETING MINUTES**

**OPA 119** 

10:30 am, Thursday February 10, 2022 County Administration Centre Zoom

Planning Committee Members: Warden Kelly Linton, Planning Chair Allan Alls, Councillors Davidson, Lloyd and McKay

Also in Attendance: Councillors Campbell, Cork, O'Neill and Seeley; Puslinch Township Councillors Bailey, Goyda and Sepulis

#### County Staff:

Scott Wilson, CAO Curtis Marshall, Manager of Development Ken DeHart, Treasurer Planning Donna Bryce, County Clerk Meagan Ferris, Manager of Planning and Nicole Cardow, Deputy Clerk Environment Karen Chisholme, Climate Change and Mark Montgomery, IT Aldo Salis, Director, Planning and Development Sustainability Manager Department Jameson Pickard, Senior Planner (Policy) Sarah Wilhelm, Manager of Policy Planning Zach Prince, Senior Planner (Development) Matthieu Daoust, Planner

**Members of the Public:** There were 31 members of the public who attended the online meeting. Staff have recorded their names in the project file as part of the public record.

#### **OPENING OF MEETING**

Chair Alls welcomed everyone and called the meeting to order.

#### STATEMENT READ BY CHAIR

Chair Alls read the following statement:

This meeting is to provide information, comments and input for Planning Committee and Council. County Council has not taken a position on the matter; County Council's decision will come after full consideration of input from the meeting, submissions from the public and comments from agencies.

If you wish to be notified of the decision of the Corporation of the County of Wellington in respect of the adoption of the proposed Official Plan Amendment, you must make a written request to the Director, Planning and Development Department, County of Wellington, 74 Woolwich Street, Guelph, Ontario, N1H 3T9.

Public Meeting Minutes | February 10, 2022

Page | 1of3

Official Plan Amendment 119 requires approval from the Minister of Municipal Affairs and Housing. Pursuant to Section 17(36.4) of the Planning Act there is no appeal in respect of a decision of the approval authority if the approval authority is the Minister.

#### PRESENTATION OF PROPOSED OFFICIAL PLAN AMENDMENT

Chair Alls invited Sarah Wilhelm, Manager of Policy Planning to make a presentation about the proposed amendment. Ms. Wilhelm's presentation covered the following points:

- Purpose of meeting
- Provincial, County and local planning policy context
- Municipal Comprehensive Review context and work plan
- Purpose of Official Plan Amendment 119 (OPA 119)
- Complete communities, County structure and County growth structure
- Regionally significant economic development area (RSEDA)
- Re-designating Hamlet of Puslinch
- Other minor OPA 119 changes
- Future implementation matters, consultation to date and next steps

Presentation slides are available at www.wellington.ca/planwell.

#### **PUBLIC INPUT**

Janet Harrop had no comments to provide on the Amendment at this time.

Barclay Nap raised four main concerns:

- The subjects being looked at in the Amendment that should be separated in two: part 1) the identification of the Hamlet of Puslinch and part 2) the identification of lands in the Township for future growth.
- 2. The economics being looked at in the Regionally Significant Economic Development Area (RSEDA) should include the current economic benefits of farm lands.
- 3. Large amounts of land included in the RSEDA.
- 4. Loss of food production lands which should not be simply viewed as empty space.

**Neal DeRuyter**, planning consultant representing Bryan's Farm Equipment in south Puslinch, indicated support for the proposed Hamlet of Puslinch. He requested that the proposed boundary be adjusted to include additional lands owned by his client to provide additional opportunity for expansion of the business.

Steven Pham, planning consultant for 492 Seventh Line in the Township of Guelph/Eramosa, requested expansion of the Rural Employment Area designation onto his client's lands. He also supports retention of policies in the Official Plan allowing for expansion of Rural Employment Areas.

Public Meeting Minutes | February 10, 2022

Page | 2 of 3

**Jeffrey Wilker**, legal representative for George Good in northern Puslinch, advised of his client's active development applications for a 22 lot expansion to the existing Audrey Meadows subdivision. His opinion is that this would be an infilling and rounding out of an existing rural settlement area.

He urged the Committee to review his various written submissions detailing his client's concerns regarding this Amendment. He expressed his client's objections to the County's Municipal Comprehensive Review process and to deleting existing Official Plan policy 6.4.7 dealing with rural settlements.

He recommended that the County either defer OPA 119; delete part 6, number 29 from OPA 119; or recognize his client's proposal within OPA 119.

**Linda Barkovsky** support the comments offered by Mr. Nap. She expressed her concerns with the impact of additional industrial development on water supply.

**Councillor Lloyd** noted receiving letters about the amount of land needed to expand settlement areas (approximately 1,200 ac, 1,000 ac of which is in the Centre Wellington Area) and the impact on prime agricultural land. She noted this is a big concern for the agricultural community.

Councillor Lloyd also asked (1) Whether heritage matters are guided by local municipalities or is it something the County Official Plan deals with? and (2) Does the County Official Plan have heritage areas outlined that can or cannot be intensified for housing?

Sarah Wilhelm advised that the Township of Centre Wellington has its own Official Plan and the heritage area overlays are identified within it and clarified that the County looks to the local municipalities to largely deal with heritage matters. Centre Wellington has a heritage planner on staff, a local heritage committee and maintains the heritage register. There are also heritage policies in the County Official Plan.

**Bill Sims** noted that the OPA 119 maps do not show any of the ANSIs (Areas of Natural and Scientific Interest) in the area under review in Puslinch and that these areas should be protected.

**Aldo Salis** clarified that OPA 119 does not remove any ANSIs and these features will need to be considered if and when the Township proceeds with the review of the study area.

#### CLOSING

There being no further comments or questions from the public, Chair Alls encouraged those in attendance to put their comments in writing to record their interest in the matter and/or request a notice of decision.

Chair Alls thanked everyone for attending the meeting and declared the public meeting closed at 11:36 am.

Neal DeRuyter, MHBC November 5, 2021	Comments on behalf of CBM Aggregates raising concerns with the proposed Regionally Significant	No changes to OPA 119 recommended.
OPA119-002P	Economic Development Study Area policy 9.8.4 which states that the policy allows for other uses "based on need". Request that the County clarify that the area may also be considered for aggregate uses and/or remove the needs test as it relates to mineral aggregate operations.	It is already clear that this is the case as PPS section 2.5.2.1 states that "Demonstration of need for <i>mineral aggregate resources</i> .shall not be required".
Neal DeRuyter, MHBC November 15, 2021 OPA119-004P	4058 Highway 6, Township of Puslinch Comments on behalf of Bryan's Farm and Industrial Supply (1649511 Ontario Inc.). Supports the identification of the Hamlet of Puslinch but asks for consideration of expanding the proposed boundary to include additional adjacent lands owned by Bryan's Farm and Industrial Supply.	Recommend change as suggested. See report for discussion.
Member of Public November 16, 2021 OPA119-006P	Has multiple concerns with the Regionally Significant Economic Development Study Area and boundary across from Sideroad 20 N on the west side of the Hanlon Expressway, including:  Disruption to rural lifestyle  Source water protection area  Prime agricultural and candidate areas  Mid-block exchange will already increase traffic, noise, reduce agricultural footprint, impact wetlands and reduce rural lifestyle.	No changes to OPA 119 recommended. These comments will be considered as part of the subsequent Regionally Significant Economic Development Area study.
Member of Public November 29, 2021 OPA119-009P	Request that OPA 119 be refused.	No changes to OPA 119 recommended.
